# What to Know about Operation Santa

Operation Santa, during the holiday season, gives a message: nobody is alone. Mental Health America of Greenville County (MHAGC) is proud for over sixty years to have continued the tradition of Operation Santa. The goal of this program is to deliver gift bags to mental health centers, supported housing and other organizations serving individuals with a chronic mental illness. Our gift bags are full of health and hygiene products that many struggle to afford on a limited budget or due to homelessness. By donating to Operation Santa, you support those with chronic mental health conditions and say, they are not forgotten or neglected. Often times, participants in the Operation Santa program receive no other gift than the gift donations through MHAGC.

While spreading the spirit of the holidays, please consider filling our Operation Santa bags with an item (s) from the list below.
