For over 50 years, Mental Health America of Greenville County has sponsored Operation Santa Claus, a project to bring a special touch of joy to the lives of those in our community suffering with chronic mental illness. The project provides gift packages to individuals who attend community mental health center day treatment programs, who live in local community care homes, or who may not have anyone else to remember them during the holiday season.

Our goal is to collect gifts and \$2,009 for special requests! You or your organization can help brighten the holiday season by making a gift or cash donation to this worthy cause.
